SKILLS

- Javascript
- Typescript
- Node/Express
- MongoDB
- React
- Redux
- Python
- Flask
- HTML
- CSS
- AJAX/Axios
- Ruby on Rails
- PostgresQL

EDUCATION

No Degree
Victor Valley College
Victorville, CA
2010

High School Diploma
Sultana High
Victorville, CA
2009

WORK EXPERIENCE

SOFTWARE DEVELOPER/SR. TECHNICAL INSTRUCTOR
App Academy – Remote - 2017 - Present

A premier programming bootcamp that teaches **React on Rails, React with Flask,** and the **MERN** stack.

- Utilized the **Puppeteer** library to scrape data from various internal web apps to compile data on students

- Leveraged the **jsforce** NPM package to automate note taking workflow in **Salesforce,** allowing instructors to take on a 100% increase in their student caseload

- Integrated the **googleapis** NPM package to create a script that automates appointment setting through google calendar allowing instructors to take on 10% more students

- Developed tests, lectures, apps, and instructional videos designed to teach students the MERN stack

- Created curriculum to teach students the basics of computer science, data structures, & algorithms reducing the average time to placement from 5.5 months to just 3.5

- Facilitated projects among teams of students and reviewed all code submissions for bugs

- Taught students how to code in JavaScript, Python, Flask, React/Redux, Express/Node, HTML, & CSS

- Wrote documentation for internal tools, and processes, and defined the standard operating procedure for the Placement's Team

CUSTOMER SERVICE REP/BOOKKEEPER
S&G Global Holdings – Irvine, CA - 2014 - 2017

- Wrote Python scripts to automate 80 hours per month of data entry work
- Created a Javascript browser extension for chrome to allow easy tracking of internal purchase orders
